Title : Global Spectrum Management Forum 2023

The Central Radio Management Service will hold the 'Global Spectrum Management Forum 2023' from September 6 to 7.

In this forum, we can share information about spectrum management & monitoring through presentations of experts, and seek a cooperation plan between global organizations.

We warmly welcome all participants who are interested in spectrum management.

Please visit our official website(<http://www.gsmf.kr>) to get more information about last year's forum.
